Making our own musical instruments

USING ONLY RECYCLED MATERIAL

Erasmus+ project

“BUILD UP Y(OUR) FUTURE THROUGH ARTS“

Funded by
the European Union

TOGETHER WE ARE A GREAT POWER!

During „Erasmus+” programme in Lithuania, all participants had a lot of fun activities. For example, we were singing, dancing, sightseeing, having a disco, different funny workshops and much more. We also made our own musical instruments!

the European Union

WE ARE HARDWORKING!

Waiting for the foreign friends coming to Lithuania, students from Neveronys Gymnasium got some work to do: to translate the name of every single tool, which could be used during the workshop, to study how it works and practice how to explain the orders and rules for others.

Funded by
the European Union

WE ARE ECO-FRIENDLY!

A bunch of different recycled things: balloons, rubber bands, paper, some strings, glitter, hot glue, tape, cans, scissors and much more were used during the workshop!

Funded by
the European Union

WE ARE FRIENDLY!

Our teachers helped us. They explained, what we need to know and to do, so then we could help our friends from Italy, Poland, Portuguese and Turkey translating the rules and orders.

the European Union

WE ARE CREATIVE!

Eventually, using recycled materials, musical instruments were made and students played a musical piece. They even managed to create their own song!

ERASMUS IS GREAT!!!

All Erasmus + participants had so much fun!

Being together is amazing!
